Dear Unimore International Relationship Office,

I am coordinating the academic international affairs with Unimore and I am responding to your request for mobility period application deadlines.

While we are surely willing to review applications on a rolling base, a desirable time frame of 4 months before the desired starting date of the mobility period is necessary to screen candidates and produce all necessary documentation to obtain a valid VISA.

The University academic calendar can be found here: <https://www.slu.edu/registrar/calendars/index.php>

For example, the Spring Semester begins on Monday, January 13, 2020, while our Fall 2020 semester begins on Aug 18th, 2020. https://www.slu.edu/registrar/pdfs/2020-2021_academic_calendar.pdf.

These dates, however, should not be considered restrictive for Unimore students, since our agreement was focused on hosting research scholars, that is, exchange students may arrive in the middle of every semester, as long as there is a mutual agreement on the starting date.

Your other question was on flexibility; we have accepted in the past visiting scholars on a shorter notice, but please keep in mind that the US government specifies that it may take up to 90 days to approve a VISA application, after the interview with the consulate or embassy is completed. More information here: <https://j1visa.state.gov/participants/common-questions/>

Finally, your other request was about a website or an infosheet for the program. We do not have an official webpage for visiting research scholars, and our International Services Office webpage has information only for International Students interested in being admitted into our undergraduate or graduate programs: <https://www.slu.edu/international-services/>.

However, given my experience coordinating several visiting scholars in the past, I have *informally* collected some useful information on my personal webpage: <https://cs.slu.edu/~esposito/visitors/> These details are subject to change at any time, so they should NOT be considered rules, laws, or university policies.

If you have interested candidates, please have them email me:

- Their CV
- Their academic transcript with the list of grades (both original and translated in English)
- A cover letter stating why the international experience would benefit the student,
- The name and contact information of the student's academic advisor at Unimore

Once we have these details, we will start the selection process and reach out to the student and their chosen academic advisor at Unimore for a followup. Let me know if I can provide other information.

With regard,
Flavio Esposito, Ph.D.

Subject: Info about deadlines for spring and fall semester 2019-2021.

Dear colleagues,
we are selecting students for a study mobility period at your University on the basis of the Agreement between our two Institutions.
We would be grateful if you could send us the deadlines for nomination and application for spring semester 2019/20 and fall semester 2020/21 and any information you might consider important (website, infosheet, etc.).
In case our selection takes longer than expected, we also ask you if it is possible to send the nomination beyond the expiry date.
Thank you in advance.
Kind regards,
Ufficio Relazioni Internazionali

Università degli Studi di Modena e Reggio Emilia - IT -
